To all residents living in Enfield Town and on or in the vicinity of Southbury Road, Nags Head Road and Lea Valley Road

E-mail : cycle@enfield.gov.uk

My Ref : Sep ET/SR Resident Letter

Your Ref :

Date : 10 September 2015

Dear Resident,

Enfield Council has secured £30 million from Transport for London to transform the way we move around our Borough. This programme, called Cycle Enfield, will improve many of the borough's high streets and town centres, making them great places to live, work and travel around. Our proposals aim to improve safety and encourage more people to walk and cycle. As we increase the number of people who make local journeys this way, we will relieve congestion, improve air quality and help support the local economy.

A key part of this programme are proposals to re-design both Enfield Town and the road space along Southbury Road from Enfield Town, to the boundary with the London Borough of Waltham Forest.

These proposals also include the re-design of the junction of the A10, Great Cambridge Road with Southbury Road (part of the Transport for London Road network).

Benefits of Cycle Enfield

We believe that the Cycle Enfield proposals will generate the following benefits:

- Improved and safer roads for everyone, however they choose to travel
- Improved facilities will encourage more people to walk and cycle
- Improved public realm will encourage people to spend more time and money in town centres, improved public spaces will create more opportunities for local businesses and community events.

How do I find out more?

Public exhibitions where you can look at these new proposals in detail will be taking place at The Dugdale Centre:

- Public Exhibition – Friday 25th September, 3pm – 8pm
- Public Exhibition – Saturday 26th September, 10am – 4pm

These events will provide an opportunity to discuss the Cycle Enfield proposals. The exhibition will also enable you to see exactly how the scheme will look in the area where you live and along the entire route.

How can I have my say?

This exhibition will mark the start of a consultation for the Enfield Town scheme and a separate consultation for the Southbury Road scheme. Each consultation will last for 12 weeks, running from Friday 25th September to Friday 18th December.

Full details of the proposals will be included on our website, available from Friday 25th September, along with a link to complete the online consultation:

www.cycleenfield.co.uk/have-your-say.

Plans will also be on permanent display at the Civic Centre throughout the consultation period. In addition, from Friday 25th September you will also be able to request a paper copy of the consultation, including copies of the proposed plans. Copies of the consultation documents will also be available on request in accessible formats e.g. large print, Braille and audio.

There is a request form available on the website, or you can e-mail cycle@enfield.gov.uk, write to Cycle Enfield Consultation, Enfield Council, Civic Centre, Enfield, EN1 3XA, or call us on 020 8379 3573/3634.

What happens after the consultation?

Following the consultation process a public report will be produced, the design proposals will be reviewed and, in consultation with Transport for London and taking into account your views, the Council will reach a decision on how to move forward with these schemes during Spring 2016. Following this, construction would be anticipated to start in summer 2016.

More information is available at www.cycleenfield.co.uk

Yours sincerely,

Richard Eason
